

Home schooling update

For additional support with home schooling your child, Rotherham Early Years have collated websites with a range of activities suitable for children in Foundation Stage.

The links below will take you directly to websites that are updated weekly with activities for children in Early Years education.

Home schooling packs with a minibeast theme are available at school from Monday 20th April, from 12.00 – 1.00pm.

To support this topic, encourage the children to access the CBeebies series – Minibeast Adventure with Jess (See the link below). This will support them with gaining an understanding of what minibeasts are, what they eat, where they live and what special features they each have. The information can be used to help them with writing information about minibeasts, making fact files or going on their own minibeast hunt in the garden or whilst exercising.
